The New England.

"The foundation of the New England that is to be, which the workers were promised, the thought which cheered them through the darkest hours of the great war, rest upon the production of more wealth."

WHAT

**MR. W. M. HUGHES,
THE LABOUR PREMIER
OF AUSTRALIA SAYS:**

"The only way by which a sufficient amount of wealth can be produced to give those high wages that the workers are resolved to have is that capital in sufficiently large quantities shall be available to enable labour to produce in abundance."

"The Workers must not live in a fool's paradise; they cannot win through the great struggle ahead of them with a policy of ca' canny Bolshevism, and class hatred, but only by hard work and co-operation between all sections of society."

You can play the 'Pianola' Piano

There is no longer any need for you to envy those friends of yours who are expert pianists. You can get just as fine musical results in playing the 'Pianola' Piano as a highly talented pianist can secure in playing by hand upon the keyboard.

Very simple yet thoroughly effective expression devices make possible this wonderful duplication of all hand-played effects. *The Metrosyle*—the simplest and easiest tempo control, a certain and authoritative guide to interpretation. *The Themodist*—a device which enables you to play in different degrees of tone, notes which are struck simultaneously, making melody or theme to sing clearly. These fundamental devices and the many other developments and refinements in 'Pianola' construction are not duplicated in kind or effect in any other instrument of the player type.

INVITATION

We invite you to come to our showrooms and try the 'Pianola' Piano. Its wonderful musical capacity—its technical perfection will surprise and delight you. Any model is purchasable from us upon **EASY MONTHLY PAYMENTS.**
